Dear XXX

Regarding your enquiry about "Alternative Energy Manufacturing Limited" , it is not the company under BOI's investment promotion . From the internet search I only found

Alternative Energy International (Thailand) Ltd. with Australian nationality and manufacture Hydrogen Machine Maker . This company is located in Chonburi, please see the link below.

**Subject:** Enquiry about Alternative Energy Manufacturing Limited (AEM),

Dear Madam / Sir,

I wonder if it is possible for you to check if a company named "Alternative Energy Manufacturing Limited", supposedly a 95% subsidiary of the Dutch company Curcas Oil N.V., is registered and active in the province Chonburi, Thailand. Apparently they run some plantations for Jatropa Curcas seed as well as a press mill to extract the oil.

The Dutch mother company is listed on the Frankfurt stock exchange. Me and my stock investment club would like to find out if and in what way their Thailand operation is active / productive.

Thanks for your help and kind regards

XXX,
